

# ASCORBIZONE

## DESCRIPTION

**Ascorbizon** is a nutritional supplement consisting in a solution of vitamins C for use in drinking water. **Ascorbizon** boosts the immune system of the animal giving better chances to recovering from stress as transport, vaccination, diseases or extreme weather conditions. Oxidation-reduction (redox) potential, two major functions of **Ascorbic acid** are as an antioxidant and as an enzyme cofactor. **Vitamin C** also participates in redox recycling of other important antioxidants as vitamin E from its oxidized form. **Ascorbic acid** role as a cofactor is also related to its redox potential.

## COMPOSITION

Each ml contains:

**Vitamin C (ascorbic acid) 22.5%**

## INDICATIONS

- Prevention or treatment of vitamin C deficiencies in farm animals, including increased disease incidence.
- Convalescence
- Improve the immune response.
- Prevention against copper-induced damage in erythrocyte and liver of broiler chickens.
- Prevention against infectious bursal disease, malabsorption syndrome, adenovirus infections, chicken anemia agent, mycotoxins or coccidiosis.
- Prevention and treatment of stress caused by vaccination, diseases, transport, high humidity, high temperatures or extreme temperature changes.

## WITHDRAWAL PERIOD

Zero days.

## TARGET SPECIES

Cattle, sheep, goats and poultry

## ADMINISTRATION

Oral solution for administration in drinking water.

- **Poultry:** Add 1 ml per 22 litres drinking water for 3 to 5 days.
- **Calves and cows, goats and sheep:** 1 ml/50 kg bw for 3 to 5 days.

## STORAGE CONDITIONS

Store below 30 °C.

Protect from light.

## SIZES

1L, 5L
