

MINTFRESH

DESCRIPTION

MINTFRESH is a refreshing oral solution intended to relieve the distress caused by heat and respiratory problems. **MINTFRESH** consists in a well-balance solution containing essential oils and electrolytes with a positive effect on heat stress and respiratory problems. The rosemary, mint, eucalyptus and thyme essential oils facilitate respiration by bronchial dilatation it also prevent from respiratory problems the electrolytes favor the rehydration of the animals.

MINTFRESH contributes to reduce heat stress symptoms, feed intake, resulting in a reduced body weight and increased fat content.

COMPOSITION

Menthol 15000 mg,
Vitamin C 4,000 mg,
Sodium Chloride 20000 mg
Calcium Chloride 40000 mg,
Magnesium Chloride 10000 mg,
Potassium Chloride 8000 mg,
Eucalyptus Oil 5000 mg,
Thyme Oil 2000 mg,
Rosemarin oil 200mg
