

SACCHPRO

COMPOSITION

Each g contains: *Saccharomyces cerevisiae* 2.1 x 10E10 CFU (21,000,000,000 CFU), passiflora extract and chamomile extract.

DESCRIPTION

SACCHPRO is a nutritional supplement probiotic specially designed for its use in ruminants consisting in rich source of living *Saccharomyces cerevisiae* strains in a herbal and mineral substrate.

Saccharomyces cerevisiae: *Saccharomyces cerevisiae* is a widely used as a feed supplement due to its composition rich in high biological quality proteins, peptides and amino acids and vitamins of the B-group. It is an efficient adjuvant against gastrointestinal tract disorders such as inflammatory bowel disease and treatment of several types of diarrhoea. It can reduce the number of *Escherichia coli* living in the gut. The use *Saccharomyces cerevisiae* results in a positive combined effort to fight specific diseases.

Herbal extracts passiflora and chamomile have an anti-inflammatory and soothing effect and are a source of fibre with prebiotic effect, complementary to the probiotic effect.

RECOMMENDED USE

- Stimulation of the rumen flora and stabilisation of the ruminal bacterial population.
- Reduction of oxygen and lactic acid in the rumen and stabilisation of rumen pH.
- Increase of the production of volatile fatty acids and proteins.
- Facilitation of the digestion of fibre.

CONTRAINDICATIONS

Not described.

ADVERSE EFFECTS

Not described.

SPECIAL PRECAUTIONS

Not described.

ADMINISTRATION

Oral use in feed.

Cattle: Beef cattle: 2 - 3 g/head/day.

Dairy cattle: 5 g/head/day.

TARGET SPECIES

Cattle

WITHDRAWAL PERIOD

Zero days

STORAGE CONDITIONS

Store below 30 °C.

Store in a dry place, away from light.

SIZES

20 Kg
